Brad -

I left you a VM just now.

Can we get a Word version of your Comments on the Draft Comp Phase 1 Report? It would save some time in not having to covert the PDF file and correct whatever is not covered correctly.

Thanks, Bob

Robert Jelinek, P.E.

Subject: RE: Request for Extension for Submittal of Comprehensive Phase 1 Report West Lake Landfill

OU-1

Paul,

Per your email capture of our call on February 8, 2016, the request for extension is approved. EPA will anticipate the revised investigation deliverable, Comprehensive Phase 1 Report, by close of business February 18, 2016. EPA appreciates the respondent's cooperation with this effort and looks forward to receiving the revised document.

Regards,

Bradley Vann - Remedial Project Manager

Subject: Request for Extension for Submittal of Comprehensive Phase 1 Report West Lake Landfill OU-1

Brad,

Per my voice mails of last Friday, the Respondents respectfully seek an extension of time from EPA in order to complete the revisions to the Comprehensive Phase 1 Report. Your January 28, 2016 letter transmitting EPA's comments provided for a period of 10 working days to complete the revised report, which results in a due date of February 11, 2016. We have been working diligently to assemble the additional items requested by EPA, including preparation of additional tables/figures, and making the revisions to the report more generally, but as we discussed, this process is taking some time. Accordingly, we are requesting two additional weeks (until February 25, 2016) to revise the report.

As we discussed this morning, EPA has indicated that it is willing to extend the time for submission of the revised report until February 18, 2016, an extension of one week or four working days given the upcoming President's day holiday. Although the OU-1 Respondents believe that the originally requested two week time frame is necessary and appropriate given the number and nature of EPA's comments and the overall size of the report, the Respondents will attempt to complete the revisions to the best of their ability by the February 18, 2016 date specified by EPA.

Please let us know by reply email that EPA approves of this extension in the submittal date for the Revised Comprehensive Phase 1 Report.

Thank-you, Paul

Paul V. Rosasco P.E.
